Class Prophecy

HEATH, DWIGHT B.

Nobody can work in Manhattan in mid-June. At least that's how I justified my resolution to take a day off. So I covered my typewriter, closed the skylight, and left my studio for a day uptown. Ever since I'd come down to the Village, I had been working steadily with breaks just often enough to admire the paintings of Beverly Kenneson across the hall, buy more paper from Daniel O'Leary, or get some cheese and crackers at Christine Rizzo's delicatessen. Now I needed a free day and was determined to take it.

Heading uptown I crossed Washington Square Park where Barbara Perkins was walking the president's dog. High in a tree roosted Richard Barnicle practicing his famous bird imitations. Over at the foot of Fifth Avenue I dropped into Josephine Falzone's grille, sipped a drink, and talked with waitress Dorothy Cheney while Louis Wool beat out *The Curse of an Aching Heart* on a battered upright piano. As I was leaving, Charles Levey came over and said, "Let's shoot a game of pool."

"No, thanks," I said, "go find another fish," and started up the Avenue.

Being a poor, struggling author I couldn't patronize the fabulous stores along the world's most fashionable shopping street, but I did notice some of them. The key store of shoe-magnate Robert Millar's chain was there, and a gift shoppe owned by Janice Bowden. Model Beatrice Demeo was just coming out of *Chez Nous*, a shop run by Irene Doucette and Marie Richards, who deal, they informed me, not in dresses, but in "exquisite, distinctive creations" direct from Paris. Well, they were pretty dresses.

It was eleven-thirty, so I decided to eat lunch and beat the rush. My old favorite, the automat, was already crowded so I went into a cafeteria. There Catherine Hayes and Virginia Keefe served me, and cashier Norma Tibbetts greeted me "back to civilization" as she termed it. I finally spied an empty seat and rushed to it. Already at the table was big Tom McDonald laughing like a man possessed.

"Pardon me, sir, but could I . . . "

"Ha, ha! Oh, sure, Dwight, sit down. I was laughing so hard I didn't see you."

I simply couldn't resist asking, "What's the big joke?"

"Just saw Robert Coyle. And you know what he went and did? Joined the army. Ha, ha!"

He put on his coat and was still laughing when he got out to the street. Well, it's still a free country. I finished just as accountants Al Scafidi and Ronald Martin came in with stenographers Jean Zwicker and Beverly Manter.

The sun shone hot directly overhead. I bought a carnation from a little old lady (fooled you, nobody I knew), stuck it in my lapel and continued up the Avenue. At Bryant Park I stopped to listen to a political rally for Al Paladino whose opponent for office was William Wiggin.

As I turned away, a sleek red convertible pulled up, and June Burns leaned over and said, "Hop in, Dwight. I'm just going up to a party in Westchester. Beverly Roberts is throwing a shindig for the big names of the sports world, and I'm to give it a big write-up in my social column."

When we pulled in at the big suburban home, the lawn party was already in progress. Our hostess did not bother to introduce us because we already knew everybody there. Those outstanding in the world of sports included golfer Waldemar Tilly, swimmers Althea Notargiacomo and Harold Williams, and mountain climber Elliette Racine. Fighters Roy Mogan and Ted Ericson were there with Fred Kokidko, Chester Muise, and Robert Cowie And of course, Margaret Koundakjian with her all-girl ball club with John Bent as mascot.

As soon as June had jotted down everyone's name on her huge note pad, we left without so much as a farewell. "Well," I said "that was easy. But how are you going to write about it tomorrow?"

"Oh, that's the least of my worries, just mention a lot of names and you're all set. The boys on the copy-desk don't know what it's all about, and the people there don't care. Just mention a lot of names, and nobody bothers with anything else," she explained.

She dropped me at Rockefeller Center, and I thought about how I had had to do the same thing in high school. Why hadn't I become a society reporter instead of an author?

Well, anyway, I was going to see what was going on in Radio City after my long absence. Strolling down the Promenade, I met Jean Gardiner. Imagine my talking to the girl who put June Allyson out of the movies! But the thrill was short-lived — she had to do a guest appearance on George Garrahan's comedy program.

In the City I bought a ticket from Marjorie Packard and headed for the observation roof. In the elevator, operated by Sally Peirce, were also lawyers Grace Colligan and Charles Lombardo.. The car raced up and I stepped out on the roof. Sightseers already there included Howard Bruya, Head-Captain in the Marines, and Sergeant Al Peaslee with nurses Barbara Ross and Helen Muise, all on furlough.

Over in one corner stood Barbara Rollins and Dorothy Mastrantuno. "What are you two looking so smug about?" I asked.

"Well, you know, we have become nuclear physicists," they replied; "we just like to come up here and sort of laugh at people and what they are doing."

The way they said it and their funny ironic half-grin made me go inside and rush down to the street again — fast.

I brushed past model Pauline Dickson, who had just come from Mary Ellis's beauty salon, and jumped into a taxi cab. The hackie, George Wollrath, sang gayly to himself as we careened down Broadway. When he had to stop for a light at Forty-first Street, I passed him a dollar bill and climbed out. As I stood on the curb trying to regain my breath, a figure strode by me and hopped into the cab. Ellen Kokidko directed George to the Russian Embassy, opened her briefcase, and was gone in a roar and a cloud of smoke.

Dashing out of the Times Building, Josephine Falzone

greeted me briefly with, ''Hello, Heath. Gotta run — gotta big assignment. Gotta meet the Queen Mary and get some interviews. Big operators — you know. See you around.''

''Ain't that just like Jo?'' said Alan Harris, who the chair back. I stared right back at them for a moment, things the hard way. He doesn't know that my paper planted Mary Juliano on the boat over in London, and she has been cabling interview material all the way across. We've had her cover Ruth Gardiner, the missionary who's coming back for her sabbatical year, singer Barbara Varney, and those women doctors Ruth Uberti and Betty Jones. They're at press now.''

Newspaper work surely is a shrewd business, I agreed — even Marjorie Clark's column of advice to the lovelorn. If it sells, print it.

Over at the Metropolitan Opera House I saw that Carol Wroe was singing the feminine lead in *Tristram and Isolde.* I understood Shirley Fleming, her agent, had her booked for a two-months' concert tour after the opera season. How that girl does it I don't know.

Around the corner I ducked into a joke shop for a trick deck of cards, but by the time manager Priscilla Wilder finished with me, my sales resistance being what it is, I came out with a silver derby, an automatic water pistol, and a big red button with the legend *23 Skidoo.* So you can imagine my chagrin when, in that attire, I met Vera Allen with her troop of Girl Scouts. I reddened, murmured a faint ''Good day,'' and broke into a run.

Panting and hot, I dashed into Geraldine Iannuzzo's soda fountain. From the booth behind I heard, ''But H20 gauge would never do, man. Don't you realize . . .''

''Shhhh, strangers may be listening.'' Langdon Goddard and Robert Hook poked their heads cautiously over was leaning against a nearby lamp post. ''Always doing but, not wanting to disrupt the progress of the Mystic Knights of the Something-or-other, I got up and walked out as nonchalantly as I know how.

Over at John Keough's canteen I got an altogether different reception. ''Just the man I want to see,'' shouted Peter Le Fort as he rushed over to greet me and dragged me back to his table. ''Here,'' he said, ''show these men how wrong they are.''

Engineers John Meade and Dean Ringrose looked at me anxiously. ''Yes,'' said Jack, ''maybe you can straighten Pete out here.''

One look at the scribbling on the tablecloth, and I knew they had picked the wrong man. They had drawn a scale diagram of the George Washington Bridge and wanted to determine the potential stress on the twenty-seventh cable on the left from the New Jersey side. ''But, fellows, you know I don't know beans about math or science. I'm just an ignorant writer, and you try to . . . .''

''Listen,'' said Pete, ''these guys have been trying to tell me that DX number 247 couldn't take it. Now any fool can see that it's only . . . ''

''Wait a minute,'' protested Dean, ''your DX 247 is 314397 per foot. This needs fully . . .''

The phone rang. ''Pardon me, boys, my brother Ernest wants me. Have fun,'' and I slipped out the back way.

At Pearl Pinstein's drug store I had an aspirin. Lois Milligan and Edna Wencis came in and exclaimed, ''We've been looking high and low for you. We have just finished a book about our travels and would like to have you pass judgment on it.''

I was elated. I treated them to banana splits (with me that's high finance) and thanked them profusely for the honor.

I went home, opened the skylight, uncovered my typewriter, and dozed off while reflecting on the day.

Class History

GREENE, MIRIAM PEARL

Our ship reaches port in the morning. I'm busy in my cabin now preparing to disembark. My clothes are all packed; I'm just tucking away a few souvenirs. Actually it's been a long voyage — three whole years. And yet I remember the day we set out as though it were yesterday. One-third of the passengers had departed in June of '45, and so, spying the void, and with the encouragement of the ninth grade teachers who saw us off at the pier, assuring us that "travel broadens one", we clambered aboard, half-anticipating, half-afraid, half-witted. We were sophomores!

That year flew by. It was about all we could do to get acquainted with the captain, the crew, and to find our way around the good ship, Waltham High. Sensing that we were not too bright, the crew began the tedious process of cramming us with knowledge.

We were an insignificant little band, but we went on, driven by the thought that some day we too would be seniors. In our earnest attempts to attain that goal, we aped the ways of these superior people. They had class officers headed by Dick Stumpf. We chose class officers too, all men, top man Bob Damoiseau, Buddy Williams, Billy Driscoll, and Denis Comeau The seniors had a dance; we had a dance. Those who attended the Sophomore Social had a lovely evening. Well, at least they had plenty of room to dance. We went on, bowing low to upper-classmen and learning our lessons well.

Ah, here are some things worthy of my memory box. This is a 1946 year-book — the first with hard covers, and within it is the shining record of our hockey season for that year with its galaxy of outstanding players.

I have my ticket stubs still from those fine Dramatic Club plays. There Guppy Bruya starred in "The Pampered Darling", the first on his impressive list of stellar acting rôles. The Dramatic Club also kept busy, as I recall, planning two fairly successful dances.

My only other sophomore souvenir is a 1946 Class Day program. We were juniors at last.

Our First Mate, Mr. Ward, retired after serving his ship well for many years. The First Mate, Mr Huff, who succeeded him, is known best by his cheery little attendance talks.

There was a changeover of officers and another "dance-of-the-year". Our newly elected representatives were President Dave Bell, Vice-President Ellen Mitchell, Secretary Doris Dunbrack, and our Auditor was that fragile fellow, Paul O'Brien. Here are my pressed roses from the big dance, which was in this case, of course, the Junior Promenade, under the able chairmanship of Ronald Goudey. Although much more successful financially and socially than the sophomore event, there was the usual early exodus as a good part of the student body beat a trail to Ten Acres, the Meadows, and points below.

This Tech Tourney score-sheet that I saved from last year will attest to a sparkling basketball season, with our boys stopped in the Tourney finals only by a magnificent Durfee High squad.

Finally the Class of '47 left in a blaze of glory with caps, gowns, and a very impressive outdoor graduation. Our exalted position was attained. All 287 of us were seniors.

Like so many seniors before us, we were a busy, happy, noisy lot. One could witness this from deck four all the way down to steerage. But what's this? —— a hush has fallen over deck one where Admiral McDevitt's quarters are. Ah yes, it's the monitor system. In the middle of ship's corridors they stood like stone statues with hearts to match, but they kept us quiet in spite of ourselves, and with careful detours onto some upper deck whenever possible, we survived.

As usual, the dance was held in the main ballroom. Strange how when one waltzed about the highly polished dance floor, one had the ungraceful feeling of being in one's gym clothes. And here's the little green and white dance program. It tells us that credit for this extremely successful affair needs go to its chairman, Paul Foley, who shares his bouquet with all his hard-working assistants.

The dance program also lists our class officers. Incidentally, the top two were one of the most coöperative teams here in years! I mean, of course, Dave Bell and Barbara Perkins. The secretary and auditor were Sally Stevens and Al Scafidi, respectively.

Many things were "new" in this last year of our voyage. . . . As a feeble protest to the "New Look", our male members were seriously considering taking up a collection for all girls forced to wear grandma's cast-offs . . . . There were many new crew members to teach us our algebra, English, geology, and what have you. . . . Young voices raised in song resounded through the ship's corridors, but it wasn't the familiar, "Give a Cheer for Waltham High". It was something *new!* It was a most interesting composition in civilization better known as "Bongo, Bongo, Bongo".

Lively little Rita Caia, the captain of the cheerleaders, led her all-girl group in the snappiest cheers and routines that Waltham's seen in many a day. They spurred on a football team that made startling victories over Everett and Newton, and a basketball team that lost to Durfee High again in the Tech Tourney, this time by a hair's breadth. Our boys played a truly history-making game, of which we are duly proud. There were stars in every sport — football, baseball hockey and basketball. All in their respective fields, some of our super senior sportsmen were "Patsy" Cacace, "Tony" Bahros, "Red" Cormier, "Charlie" Metz, "Al" Peaslee, "Dave" Bell, John Bent, and "Al" Scafidi.

We climbed into our "woolies" early in the season. It certainly was a wearing winter, brightened, however, by the playful antics of George Russo and Morrill Wilson. . . . . Mr Mosher, as class advisor, became a first-rate Mr. Anthony, with a word of wisdom for all those who sought the benefit of his counsel. . . . . A select group of girls witnessed frequent teachers' meetings at Giardina's Ice Cream Parlor. And so the winter passed.

Then April came and time for the Senior Play. Here are the News-Tribune clippings. The play, "A Date with Judy", under the direction of Mr. "Smiling" Ralph Nelson. came off without an apparent hitch. That was due, no doubt, to the conscientious chairmanship of glamorous Joan Rourke and vivacious Rita LeBlanc. It was a story of the well-known, well-loved Foster family, aptly

played by Marjorie Clark, Courtney Gillis, Howard Bruya, Barbara FitzGerald as Judy herself, and William Curran as Oogie, her beau.

Right now the year is just about all over. . . . . Miss Hart shed bitter tears as her IV B boys walked from Room 114 for the last time. . . . . Al Peaslee and Buddy Williams won't be wearing dungarees till Friday. . . . . We also learn that the Waltham High will have a new captain next year since, after honorable service aboard ship since 1904, our beloved Captain Goodrich is leaving with us.

There's another souvenir that I'll gather today — a magazine. I believe they call it the MIRROR, for which, at the paltry price of four dollars, one may purchase the blood, sweat and tears of its editors, my favorite woman and a brilliant lad named Dwight Braley Heath.

Tomorrow will officially mark the end of the ninety-ninth voyage of the Waltham High, the end of our foundation for living, also the end of our voyage as a whole — the Class of 1948.

From here on in, each one of us is alone, ready now to accept life and the responsibilities that will surely come, and there is a feeling of grateful appreciation for our education, and pride in the knowledge that we too are equipped to contribute our bit to the progress and well-being of mankind.

Some of us may forget just a few things — an algebra method or a word in French, but none of us should forget the basic things we learned on this cruise — tolerance, a spirit of fair play, respect, and co-operation. Those are the souvenirs we should treasure most of all and keep always, for they are not material things that a lighted match can destroy, but rather they are a way of life that should find a permanent home in our hearts.

I'll close my box of memories now. As we walk down the gangplank tomorrow morning, there'll be a ribbon-tied scroll and a white tassel to add to it. But right now I'm going to join all my friends and fellow-passengers on deck. We all can see from there the vast land that awaits us.

MIRIAM P. GREENE.

Class Poem

By

BARBARA FITZGERALD

A few brief yesterdays have come and gone since we,
With hearts determined and our courage high,
Stood young and eager at the future's gate
Seeking new horizons in the sky.

We shall not falter, though the course be rough and steep,
For those swift-helping hands, which in the past
Guided us with skill and strength through all these years,
Shall hold us to the course and keep us fast.

Our thoughts go out in gratitude to those
Who gave us courage and with patience near-divine
Guided our steps aright. Time cannot soon erase
These memories which 'round our hearts entwine.

In the uncertain days ahead a challenge lies.
And we with plans, our future shape and mold.
"What lies ahead?" we wonder all the while,
"What will the future bring; what does it hold?"

To one, Fate grants success; another, she denies.
It matters little that the prize we win,
If we can live with standards brave and true.
For one's real worth is that which lies within.

Class Will

BOWLER, MARY

Be it remembered that we, the Class of 1948, being of sound and disposing mind and memory, and wishing to direct in what manner our possessions shall be disposed of after our departure, do make and publish this our last will and testament. After the payment of our just debts, we bequeath and devise as follows:

To Mr. Goodrich, our patient headmaster and friend, whose untiring efforts to help each pupil have made each one of us admire and respect him, we leave our sincere gratitude, and we wish him the greatest happiness in his future.

To Miss Clement, who day after day has to listen to the ruination of her beloved language, we leave an airplane in which she may fly to and from France whenever she gets the urge.

To Mr. Sheehy, the man with all the bugs, and we mean his specimens, of course, we leave a finger-printing set which may be used to detect the whereabouts of his rulers, manuals and paper.

To Miss Betts, our well-liked Latin teacher, who has the power to make even Latin seem interesting, we leave a class of students who can translate as easily as they can speak English.

To Mr. Huff, who has all but personally escorted each one to school each morning, we leave a trumpet which will sound each morning to wake up each pupil and lessen his duty.

To Mr. Mosher, whose knowledge of English knows no bounds, we leave a class of Senior Tech boys who are quiet and gentlemanly.

To Mr. Hood, whose tireless efforts have been producing a bigger and better year book every year, we leave an editorial staff which will prove as effective as that of our own class.

To the Class of 1949, we leave the freedom, the little homework and sense of leadership that every senior dreams of in his junior year.

We hereby nominate Miss Darmedy, Mr. Garrahan and Mr. Morang as co-executors of this, our last will and testament. In testimony whereof, we hereunto set our hand in the presence of three witnesses and declare this to be our last will this second day of June in the year one thousand nine hundred and forty-eight.

CLASS OF 1948

CODICIL to Last Will and Testament

Be it remembered that we, the Class of 1948, being of sound and disposing mind and memory, do make and publish this, the codicil to our last will and testament.

To Joanne Peirce, the girl who is always hidden behind some book, we leave a pair of horn-rimmed glasses to add to that intellectual appearance.

To Dwight Heath, the most studious boy and the boy most likely to succeed, we leave this medal of achievement, which we know will be succeeded by many more in the future

To Rita LeBlanc, the most popular girl and the girl with personality plus, we leave a bottle of Woolworth's best proof wine labeled "Irresistible", which will be one more addition to her magnetic personality.

To Dave Bell, our most popular boy, who has been our class president for the last two years and who has had the courage at each assembly to stand and say "Stand. Salute," we bequeath a statue of speech achievement which is presented only to the best orator of the year.

To Barb Perkins, our best looking girl, we leave a lasso which may be used if any one of her charms are dulled, which of course we doubt very much.

To Eddie White, our best looking boy, we leave a mustache to add to his many charms "a debonair look", which will really give Clark Gable competition.

To Miriam Greene, our best dressed girl, our most glamorous girl, and the girl most likely to succeed, we leave an outfit which will be an asset to her in whatever career she enters.

To Donnie Bigham and Ronnie Goudy, our best-dressed boys, we leave a piece of neckwear which will sharpen up any outfit.

To Esther Waldman, our brightest social light, we leave a red convertible, which we know will be a necessity to perform her many social duties.

To Tony Bahros, our class Charlie Atlas, we leave a can of that well-known muscle food which has made Popeye famous.

To Lorraine Bruneau, our most athletic girl, we leave a bottle of vitamins, which will give her that needed energy and pep.

To George Russo, our class wit, who is our perfect example of why teachers and mothers get gray, we leave a box of "snickers."

We hereby nominate Miss Russo, Mr. Pettinatti and Miss Nolan as co-executors of this, the codicil to our last will and testament.

Waltham Scores as our Band cheers!

Assistant Coach of football Mr. Jack Fisher
with a cherished Victory Ball.

Waltham's new coach of football comes to us with a fine record of past athletic achievements in both football and basketball. He was born in Everett, Massachusetts, in 1908, and attended Everett High School where he was an all-round athlete. His senior year was highlighted by his football team's becoming the State Champions with no defeats, and his basketball team participated in the National Tournament with an 18 - 0 record before they were defeated. Jack Fisher was also outstanding in basketball and hockey.

After receiving his diploma he entered Fordham University, where he gained nationwide recognition as a quarterback in football. During his three years of college football, the team suffered defeat only twice, and through his brilliant playing Fordham went undefeated during his Sophomore year. As second baseman and captain of a great Fordham baseball team he led them to the Eastern Championship in his Senior year with a one loss record of 15 - 1.

The very day he graduated from Fordham in 1932, he placed his signature on a New York Giants baseball contract. He remained with the Giants for only a year. The next year he played for Lowell in the New England Baseball League. In the fall he became backfield coach of Canisius, where he coached for one year. He then became head coach of all sports at Bridgton Academy between 1934 - 1938, where he coached two undefeated football teams. Between the years of 1938 - 1943 he coached at Edward Little High School in Auburn, Maine. In 1941 both his football and basketball teams won the State Championship. The basketball team was invited to the New England Tournament and also to the Glens Falls Tourney in New York.

Mr. Fisher during 1943 - 46, left his sports to serve in the United States Navy as a Lieutenant. Upon receiving his discharge he accepted the position of football and basketball coach at Manlius Military School, where he coached for one year. During that year his football team was untied and undefeated, while the basketball team ended the season with a won and lost record of 14 - 4, compiled against many Freshman teams of top colleges.

Finally in the year 1947, Jack Fisher came to Waltham as assistant coach to Jack Leary. We are proud to have a man so talented and capable, training our athletes on the gridiron.

With only two veterans, Captain Tony Bahros and Walter Bartlett, returning from their 1947 Tech Tourney finalist team, Coach Quirn began the tedious job of rebuilding his basketball team for a long and hard season in December. Dipping into his varsity reserves and jayvee talent, Coach Quinn brought up Chet Muise, "Whizzer" White, James Morse, Ken Cormier and Sophomores Joe Arsenault and Vin (Bugs) Florio as his starting varsity material. Although lacking in height, as usual, this team went beyond all expectations After taking its initial start by defeating Belmont 26 - 25, a team that was to become Class B. champions, it lost to a usual strong Somerville team and also its first league game to lowly Cambridge Latin team. It was from here on that Waltham started to pick up. It went on to win the next ten contests and capture the Suburban crown, and a bid to play in the Eastern Massachusetts tourney. In the tourney in the first round Waltham eliminated a strong Salem club, which sports writers tabbed as the "Dark Horse" of the tourney and one of the best teams around. They won by a score of 36 - 19. Waltham then succumbed to a great Durfee team in the semi-finals by 1 point margin, 36 - 35 in a double overtime sudden death period. This game was said to be one of the most thrilling games ever played in the Tournament since it had begun. This team also took the measures of arch rival Newton twice, and defeated Somerville for the first time in five years.

Although lacking in height, Waltham had the spirit and determination which is a success to any ball club. Ken Cormier, Captain Tony Bahros and Chet Muise depart this June and will be sorely missed, Cormier and Bahros for their rebound work and Chet Muise for his deadly set shooting. But coming back are Captain Walter Bartlett, high scorer and owner of two Waltham scoring records, the ever-dependable "Dick" White, talented Joe Arsenault, Jim Morse, Vin Florio, Joe Terrasi, and Don Baldaro, which gives us something to look forward to.

Waltham began its season by losing the first four games it played. Three of these games were lost by the score of 2 to 1 with Waltham on the short end of the score. The other game was a 3 to 0 whitewashing by Framingham. After these four games Waltham was not headed again, although it was tied twice.

It seems that Waltham's reason for having such a poor season was its lack of scoring punch. Only its superb defensive play kept the Crimson array from a more lowly position.

All season long it was the brilliant play of Metz, Bill McKenna, and Charlie (Chuck) Roche, Waltham's shut-out king, that kept Waltham in the game. Although Waltham's season was not the best, it was the only team to score a victory over Watertown. It was in this game that Gus Carlson, a victim of polio only last September, not only tied the game but also smashed in one of his rebounds for the winning goal. Waltham also upset Walpole by tying them 1 to 1 to knock them from the top of the heap.

Only one member of the team made the first team Bay State All-Stars, and that was Dave Bell. For the first four games Bell centered the first line, but was then shifted to defense. But no matter what position he played he was outstanding. Maybe it was due to this shift and others made by Coach W. Brinn that helped the sextet to remain undefeated for the last six games. Metz, McKenna, Lefort and Roche made the Second team Bay State All-Stars. Although this year was not too much of a success, Mr. Brinn has a promising group of sophomores coming up and a veteran goalie. So better luck to the future pucksters to play on Waltham's Sextets.

BOWLING

Every Tuesday and Wednesday afternoons the Brentwood Alleys are the scene of keen competition as the Waltham High School girls hold their regular bowling sessions. Strikes and spares result in great chaotic screams. Especially noticed were the voices of Megs and Estelle, Gracie Elliott's form, Pauline LeBlanc's consistency, Gladys's imitations, and Joan Richardson's curve. Our thanks to Miss Sewall for her super job as coach.

This is another year, another graduating class, and another MIRROR.

The year, as a whole, from the political viewpoint, has been none too good with the threat of war again looming before a battle-tensed, war-weary, peace-seeking people.

Those are the conditions in which the ninety-ninth class of Waltham High takes diploma in hand to face whatever life may hold.

With every graduating class, there has been a symbol and a souvenir of that Commencement Day. It is the MIRROR year book. This year, we honestly believe that it is better than ever — an issue of which every student may be proud.

The MIRROR just doesn't happen. It takes the hard work, effort, and coöperation of many people who will at least verbally get their orchids here and now.

To Mr. Mosher, our literary advisor, whose assistance has been invaluable to us in countless ways, goes the gratitude of us all.

We extend our hearty thanks to Mr. Hood for his conscientious efforts on behalf of the betterment of the MIRROR as both the faculty manager of the business and photography staffs.

To Mr. Perkins, for his fine photographic contributions, and especially to Miss Russo for her splendid art layouts and her many extra hours spent improving our MIRROR, we give our very sincere appreciation.

Our thanks also to Miss Grover, who supervised the typing of the manuscripts and the multigraphing of the many forms used.

We are deeply indebted to the News-Tribune, various contributors, and our entire staff, as well as the unheralded Room Agents, as follows:

013 George Aucoin
015 Jean Kelly
017 Ann Mula
102 Agnes Gilbert
106 Rita Scarpello
107 Mary Lou Harrington

215 Pauline Wagner

And now we hand the torch to next year's editors with a hearty and a sincere wish that they will hold it high and come through in finest MIRROR tradition.
